### Event Report

*“The goal of early childhood education should be to activate the child’s own natural desire to learn.”*

– Maria Montessori

Little minds learn best when they are engaged in experiences that are relevant and interesting. While the kindergarteners experience a joyful journey of learning through the session, Coffee with Curriculum- the year end presentation gave them an opportunity to take the centre stage and share the same with their parents. The interactive event boasted of 100 percent participation.

The presentation started by seeking blessings from almighty and welcome song for all the parents. This was followed by a Nukkad Natak to integrate the value of the month ‘Cleanliness’ with the General science topic which focused on 3Rs- Reuse Reduce & Recycle. The presentation was initiated with a formal welcome of the parents by the school Principal, Ms. Seema Sahay who emphasized on integrated curriculum is individualized to meet every student’s needs.

The kindergarteners then displayed their acquired knowledge to the parents through a variety of engaging activities, stories, experiments, and creative ways which had made learning fun for them. All concepts were explained at different subject counters which were addressed by the Goenkans with remarkable poise and grace. The presentation outlined the school's thoughtful SMART approach to student development, which attempts to maintain a balance between the scholastic and co-scholastic spheres while ensuring that academic inputs continue without interruption.

In her vote of thanks, the Headmistress, Ms. Vinita Sachdeva addressed the parents and blessed the students who are ready to advance to the next level as the event came to a close. The students put up a great dance performance to the beats of ‘I am ready to go.....’

The engaging session was lauded by the parents, who expressed their admiration for the Goenkans’ confidence and independent handling of the various concepts.
