

G.D. GOENKA PUBLIC SCHOOL, SARITA VIHAR

THEME: THE GOENKAN RECONNECT

REPORT: Welcoming students back to school for Physical classes

DATE: 17 & 18 February, 2022

CLASS: Nursery - Class II

Event Report

“The capacity to learn is a gift, the ability to learn is a skill
The willingness to learn is a choice.”

Brain Herbert

The Goenkans of Nursery to Class II were welcomed into the premises G D Goenka Public School, Sarita Vihar post COVID-19 lockdown for the offline classes in a very warm and fun-filled manner wherein the school was decorated beautifully with colorful balloons and crafts. The school hosted the event **The Goenkan Reconnect** to meet each other after a long physical absence with an objective to introduce our little minions with the fun filled learning platforms which they could look forward to when they would be back in school. To welcome the Goenkans back to school and help them experience the constructive energy several games and activities were organized. The day of the Goenkan Reconnect was a day brimming with fun and learning activities specially designed for the young Goenkans. It was overwhelming to see the positivity and willingness exhibited by the students while reuniting with normalcy. The main aim for organizing this event was to take a step forward and shape their reconnect with positive hopes. **Curiosity Circuit** showcased different science experiments which were exhibited to tap the scientific quotient along with the added attractions of the **Potter’s Junction, Selfie Zone, Tattoo Thrill, Creative Corner, Goody Bags** and much more. **The Games Arena** was another big hit with the young attendees who tried their hand at the various games which were planned keeping in mind the learning aspects of the children. The event helped in enhancing the student-teacher relationship. The children also got an opportunity to interact with their peers and develop a bond with each other which they were missing out on since long. The purpose of the Goenkan Reconnect was to bridge the gap after the lock down phase and promote a mindset to get back to normalcy. The broad smiles and bright shiny eyes on the students’ faces were the proof for of the success of the aim for the event.
