

**THEME:** Water

**REPORT:** Thematic Class Presentation

**DATE:** Friday, June 5, 2020

**CLASS:** K.G.

### Event Report

*“The capacity to learn is a gift, the ability to learn is a skill, the willingness to learn is a choice”* - Brian Herbert

A Virtual Class Presentation on the theme ‘Water’ was presented by the kindergartners of G.D Goenka Public School, Sarita Vihar on 5<sup>th</sup> June, 2020. The 3 week thematic learning was conceptualized in a way that students indulged in a variety of hands-on learning activities along with subject-integrated learning. The kindergartners got the best out of this time by becoming adept in water related topics such as the Water cycle, Water transport, Aquatic animals etc.. The knowledge that was accumulated in the young minds was presented on a virtual platform. The captain of the Goenkan Sailing Ship was our esteemed headmistress, Ms. Vinita Sachdeva, under whose leadership this endeavour was possible. These topics enriched their general knowledge and made them sensitive about the usage of water.

The presentation started off by acquiring the blessings of God after which students executed their talents. The presentation included various important topics such as the seven steps of washing hands, an extremely vital subject in today’s scenario. It went on, with children executing their practical skills and making a refreshing lemonade which taught them that water is a universal solvent. They enjoyed enacting as aquatic animals and sharing some fun facts about them. The icing on the cake was the dance presentation which the students performed in the end, making them feel energized and kept their spirits high.

The parents were extremely appreciative of the presentation and made this event a memorable one. This initiative, once again, proved that no matter how unfavourable the times are, Goenkans are always going to emerge out of any adversity Higher, Stronger and Brighter.
