### **EVENT REPORT**

#### ***"TO BE PREPARED IS HALF THE VICTORY."***

With a ray of hope in our heart, G D GOENKA PUBLIC SCHOOL, SARITA VIHAR, organized a webinar 'The HealthCare Voices-Ways to tackle third wave for Gen Z' on Saturday, 17 July 2021 by a highly experienced doctor.

The webinar aimed to streamline infection management measures and to apprise our parents about the ways to tackle a possible third wave. The guest speaker, specialist Doctor Priya Tomar, gave her insightful suggestions on the subject matter. Her suggestions to improve immunity levels, precautions while getting vaccinated and her expertise about the after effects of Covid-19 was very helpful for the students and parents.

The webinar concluded with an announcement of a social initiative 'EACH ONE FEED ONE' by our respected Principal ma'am Ms. Seema Sahay to reach out to aid the ultra-vulnerable people who are least able to protect themselves people and are poverty-stricken. The idea is for all Goenkans is to contribute or distribute food hampers to support a family for a day. The webinar turned to be very engaging and informative.

Following the common belief of being well prepared for the predicted third wave, the webinar intended to be an opportunity to serve as an inspirational event for students to be well prepared and focus on their physical fitness. It is also aimed at encouraging young learners to be kind and help the needy to be able to combat the third wave in a better way.

The session ended with a question-answer round that allowed the students and parents to clarify all their doubts regarding, making them feel well prepared for the uncertainty that the future holds.
