

THEME: ‘Impressions and Expressions’

REPORT: Annual Exhibition

DATE: Saturday, January 20, 2018.

Event Report

The Annual Exhibition is an integral part of school activities. It is an occasion of celebration, felicitation and festivity when students not only present their exhibits but also receive appreciation for their hard work.

G.D Goenka Public School, Sarita Vihar organized its Annual Exhibition on Saturday, January 20, 2018. The school campus witnessed great fun and frolic as the students and teachers put up subject specific stalls, displaying projects and models created by the students. It was a platform provided to the students to tap their hidden talent and innovatively give shape to theoretical learning.

Esteemed members of the Management, Mr. T. R. Garg, and Mr. Madan Lal graced the occasion. Escorted by the Principal, Mrs. Seema Sahay, the dignitaries visited each stall and lauded the praiseworthy efforts of the students.

The visitors were welcomed to the exhibition through a walk in the Picture Gallery which displayed colourful pictures of Goenkans capturing each moment of learning that happened under various school programmes. This led towards the exhibits put on display by the senior school students. The intriguing Science experiments, scholarly discussions of the Indus Valley Civilization, practical application of Math concepts, and the alluring world of Language were all interestingly explained which generally seem complicated but were dealt with in the most non-complex manner. Their vast knowledge about Space and Astronomy was spellbinding.

Moving ahead, the spectators were charmed by the delightful ways of the little Goenkans. The tiny tots of the Junior school told stories, demonstrated experiments and highlighted innovative techniques of making learning fun. They also self-sufficiently tutored the visitors about dining etiquettes, safety habits, the need to promote green economies, and engaged them in some entertaining games. The highlight was the beautifully decked up ‘Culture Gully’ wherein ‘Culture’ oozed from the dazzling alley where the fledglings of our school, the Nursery, Kindergarten and Class 1 students, successfully made heads turn as they put forth their knowledge of Ecology in action as they dressed, spoke and enlightened all with their vast awareness of countries like Japan, Canada, UK and USA.

The main attraction of the day was the flash mob followed by the street play which shed light on Environmental Degradation in a light-hearted and funny manner. The students also treated themselves to interesting books by picking their favourites from the vast collection put on sale in the Scholastic Book Fair.

The exhibition received huge appreciation from all. The zeal and enthusiasm showcased by the students left the visitors amazed.
