THEME: - Annual Dental Health Check-Up.

REPORT: - Annual Dental Health Check-Up

DATE: - 16/07/2018 to 19/07/2018

CLASSES: - Nursery to VIII

EVENT REPORT

Oral hygiene is an integral part of one's good health and hygiene. To enable the Goenkans to maintain the same, periodic dental health check-ups are very essential. In view of the same the school annual dental health checkup was organized for all students from Nursery to VIII. The checkup was piloted by the school doctor, Dr. Anuradha Arora, the school Nurse, Ms. Renu along with an expert dentist, Dr. Archana Rani. The team spoke to the students about the importance of oral and dental care and explained in details about the possible root causes of the dental and oral health problems. A demonstration on the correct way of brushing the teeth, step wise, was also given by Dr. Archana Rani. The students were checked thoroughly and the observations were recorded in the dental health card of every student. Students with any cause of concern were advised further consultation with their dentist. The camp was very beneficial for the Goenkans since it not only created an awareness about the need to maintain oral hygiene but also helped in identifying any dental problem like cavities, caries, or irregularity of teeth eruption in the students.
