The new academic session began with Fun Day on Monday April 2, 2018 comprising a day packed with fun activities. Learning has to be a joyful experience and this icebreaking session included fun ride on toy train and bouncy experience. An interactive puppet show using cartoons and animals enthralled the young audience who wholeheartedly participated in the same. The students also tried learning a few magic tricks during the magic show organized as part of the day.

Mouthwatering snacks like popcorn and candy floss; along with a gift for every child which was the icing on the cake. The smiles on the students' faces were a proof of the grand success of the day and set the pace for every school day to be as joyful as the Fun Day.
