

EVENT: Green Colour Day

DATE: Friday, 31st July, 2026

THEME- Concept Learning Through Experiential Learning

ATTENDED BY: Nursery.

REPORT

Green - The prime color, a symbol of fresh beginnings, and the quiet heartbeat of nature, green is just not the colour, it's a feeling of prosperity calm, composure and serenity. Nature has its own way of saying-keep a green tree in your heart and perhaps the singing bird will come. And this statement holds true when the Nursery corridors of GD Goenka School were graced with green.

GD Goenka, Sarita Vihar celebrated **Green Colour Day** with great enthusiasm and joy. The aim of the celebration was to help students learn about the importance of the colour green, which symbolizes nature, growth, freshness, and a healthy environment.

All the students came to school dressed in beautiful **green-coloured clothes**, making the campus look bright and lively. The classrooms were decorated with green-themed boards, leaves, balloons and plants to create a cheerful atmosphere .A special **nature bracelet, bubble tree printing and show and tell activity** was organized for the students. Each child brought a green object such as a leaf, plant, fruit, vegetable, toy, flower, grass or any other green item. The students confidently showed their objects and spoke a few sentences about them, improving their communication skills and boosting their confidence .The celebration was fun-filled, educational, and interactive. Through songs, rhymes, and activities, students learned about the importance of protecting nature and keeping our surroundings green and clean.

It was a memorable experience for everyone as it encouraged students to appreciate nature while learning through enjoyable activities and learning each day as they say “when you are green, you are growing.
