

REPORT: General Health Checkup

DATE: May 05 & 06, 2026

CONDUCTED BY: Health Basix

ATTENDED BY: Students (Nursery to Class 2)

EVENT REPORT

G.D. Goenka Public School, Sarita Vihar, successfully conducted a General Health Check-up Camp on Tuesday for the students of **Nursery to Class 2**. The initiative was organised with the objective of promoting health awareness and ensuring the overall well-being of young learners through regular medical assessments.

A team of healthcare professionals from Healthbasix conducted various health assessments in a systematic and child-friendly manner. The check-up included dental examination, eye screening, height and weight measurement and general physical assessment. The students participated enthusiastically and cooperated well throughout the process.

During the dental examination, children were guided about the importance of maintaining proper oral hygiene and adopting healthy eating habits. The eye check-up aimed at identifying any vision-related concerns at an early stage so that timely guidance and care could be provided. Height and weight measurements were also recorded to monitor the physical growth and development of the students.

The health camp was conducted smoothly under the supervision of teachers and school staff members, who ensured proper coordination and comfort for all the students. The initiative helped create awareness among children regarding healthy lifestyle habits and personal care from an early age.

The school extends its sincere gratitude to the medical team from HealthBasix for conducting the check-up efficiently and to all the teachers and support staff for their valuable cooperation in making the event successful.
