

**THEME: Environmental Awareness**

**REPORT: Plantation Drive**

**DATE: Tuesday, January 20, 2026 to Wednesday, January 28, 2026**

**CONDUCTED BY: Students and teachers of classes III and IV**

*“The shade we enjoy today exists because someone planted a tree years ago.”*

GD Goenka School, Sarita Vihar, New Delhi organized a Plantation Drive for the students of Classes III and IV from Tuesday, January 20, 2026 to Wednesday, January 28, 2026.

With the aim of promoting environmental awareness and encouraging care for nature, teachers explained the importance of conserving the environment and highlighted the many advantages of planting trees. The young Goenkans actively participated by bringing various saplings such as fruit-bearing plants, flowering trees, and decorative plants, which were planted across the school premises.

The activity of developing a green space within the campus helped students feel connected to nature and responsible for its care. Understanding how trees help reduce pollution and restore natural balance inspired them to plant more trees in their homes and local communities.

Students also conveyed a meaningful message to their classmates, emphasizing that planting trees is essential for sustainable growth and the well-being of future generations.
