

REPORT: Safe Boundaries and Child Rights

DATE: July 30, 2026

CONDUCTED BY: School Counselor

ATTENDED BY: Students and teachers of III - V (students – 280 +20 Teachers)

EVENT REPORT

Teaching children about safe and unsafe touch is not just about protecting them from harm but also about fostering self-confidence, self-respect, and having a clear understanding of personal boundaries.

A workshop was conducted by the school counselor Ms. Urvashi Sareen for classes III - V on Thursday, July 30, 2026. Students were apprised about the valuable Child Rights and importance of maintaining personal boundaries, which are not just physical but also emotional, verbal and digital. Students were also encouraged to

identify their Circle of Trust and reach out for help. The strategy to handle an unsafe touch were also discussed, where students were reinforced with the thought of saying 'No' to unsafe touch and moving away from the situation and telling a trusted adult.

July 2026, being observed as a Child Safety Month, a Pledge on Child safety was rendered by respected Principal ma'am Mrs. Seema Sahay and all the students committed to become responsible for protecting their and others selves.

By educating children early, encouraging open communication and offering them support we ensure that they grow up understanding their rights and boundaries. In conclusion, understanding safe and unsafe touch is vital for ensuring children's safety and emotional well-being.

Glimpses of the workshop
