School focuses on student-centric activities for holistic development

Admissions are now open for the 2025-2026 academic session at GD Goenka Public School, Sarita Vihar. "We are excited to welcome new students to our dynamic and student-centric learning environment," says the school's management team.

At GD Goenka Public School, student-centric activities are the cornerstone of an engaging, innovative, and dynamic learning environment. The school aims to nurture each student's potential by offering a wide array of initiatives that cater to their diverse needs.

The team adds, "Our progressive learning models, including project-based learning, inquiry-based learning, collaborative learning, experiential learning, and gamified learning, actively involve students in the learning process, with teachers guiding and facilitating their exploration. With competency-based learning and the flipped mastery model, students

progress at their own pace, while Montessori and blended learning foster independence and self-direction."

Beyond academics, the school offers a variety of extracurricular activities that support the development of well-rounded individuals. "Leadership

skills are cultivated through debates and Model United Nations (MUN), and our students regularly showcase their innovation in art exhibitions and science fairs," they add.
