The Kindergarteners of GD Goenka Public School commemorated International Pet Day by celebrating the day with their classmates and teachers in school. The students presented their favourite pets through the stuffed toys/ cutouts and pictures which they had brought to school as part of the celebration. Real pets like parrots, fish and rabbits were also part of the day, helping the students to experience hands on learning about their habits, habitat and physical features.

A Tattoo corner was set up for the students who went home sporting a tattoo of their favourite pets. To integrate art and craft in the celebration a cut out of a Dalmatian Dog was made by the students as a memento for the day.

The Pet Day taught the students to be compassionate and responsible towards all animals. They learnt what a significant role the pets play in our lives.
