**DATE:** Friday, July 20, 2018

**CLASS:** Nursery

### Event Report

**“Life is a great big canvas and you should throw all the paint you can on it.”**

**- Danny Kaye**

Colors play an important role in our lives. Different colors symbolize different personalities and also affect moods differently. The seven colours of the rainbow are also linked to seven chakras, seven days of the week and so on. To celebrate the onset of monsoon season and to conclude the concept of colours, the Rainbow Day was celebrated by the Goenkans of classes of Nursery on Friday, July 20, 2018.

After celebrating a series of all colours days, the little angels of Nursery culminated their knowledge about different colours with the Rainbow Day. A beautiful Rainbow, the VIBGYOR was created using by paper plates and other craft material. The main objective was to deliver the concept of the rainbow and all the colours to the children through the hands on activity in order to engage in visual discrimination.

Teachers and children spoke about colours during class time and had a rhymes session on colours too. To foster their imagination skills, a fun quiz different colours on was also conducted for the little ones.

It was indeed a memorable and a colourful day replete with fun, colourful activities and learning.
